

# HOW TO PLACE A FINANCIAL COMPENSATION CLAIM FOR THE ILLEGAL INSTALLATION OF A BLUETOOTH TELECOMMUNICATION OPERATING SYSTEM IN THE BODIES OF THE VACCINATED

## THE COMPLETE GUIDE

The illegal installation of a Bluetooth telecommunication operating system in the bodies of the vaccinated is without any doubt the biggest crime in the last century and possibly in known human history. The psychological impact from it is huge. The technical part of placing the financial compensation claim is truly very simple, fast and easy and the steps below show you what to do. Yet, there's way more to it. We need to understand in depth what happened, how we allowed it and how we can look forward to a future that we have trust in. For anyone who wants to place this claim I'd most highly recommend to have a look at the [Bluetooth Freedom Project book](#), which is written really simple and understandable for the common person and contains perhaps more visuals than text for maximum clarity and simplicity. It's really unique with its most sincere effort to try to find a positive perspective for what has happened and to turn all fear, suffering and sorrow into love, hope and peace. In the same time it's the complete technical guide for all aspects of the Bluetooth chipping of the populations, including placing the claims with the police with letter and attachments.

Here are in short the steps you need to know and take

- **SIMPLICITY AND RELIABILITY OF THE PROOF**

First and most important, you need to get acquainted with the process of establishing the proof. It is both very simple and highly reliable and usable in front of any institution. **ANYONE WITH MOST BASIC KNOWLEDGE** of working with a smartphone can learn it in minutes. In fact the application used has more than a million users and the feedback for it is quite pleasing with users sharing that it's the best in its class and they find their Bluetooth devices in minutes, so you should be able to do the same with the potential Bluetooth signal emitted from the body of the vaccinated.

- **DOWNLOAD AND TEST WITH THE BLUETOOTH SCANNER-FINDER APPLICATION**

Download the application and do several tests. The most recommended application for the purpose is "[Bluetooth Scanner - Bluetooth finder - pairing](#)" (for Android) by Zoltan Pallagi.

Download the [Protocol for detecting the Bluetooth chip with vaccinated](#) from the <https://theukoflove.com/bluetoothfreedom/> page and follow the instructions.

- **ATTENTION!**

NOT ALL of the vaccinated emit a Bluetooth signal. Some have received a placebo injection, some might have been detoxified from the graphene oxide, which is the carrier of the Bluetooth operational system and there could be other unknown reasons yet. Observations show that perhaps somewhere between 50-90% of the vaccinated have it.

- **IF YOU ARE AMONG THE VERY FIRST ONES**

If you are among the very first ones to place a financial claim, it's highly recommendable to place your claim in a group with at least a few other people, the more the better. Best to place the claims simultaneously at the different police stations in the same city and the same county at the same day or few days apart.

Why is this necessary? This is necessary for the following reason. The crime that we're dealing with here is of an extraordinarily big proportions, so much so that the common human mind cannot perceive it as possible and will automatically reject it as a possibility. I've been rejected already once at a police station in the UK at the very beginning for this reason, but at that time I didn't have this documentation and also the accumulated experience and the right approach. Further, if the investigative officer has been bombarded so intensively with messages in one direction and has seen the overwhelming part of the population going in this direction, then the contents of this documentation, which goes against it, will create a tremendous amount of psychological pressure and discomfort for him. Please, do watch the following very short videos on the psychology of social conformity. When you see them you'll understand that giving an individual complaint at a single police station for a case like this is practically equal to conducting these social experiments again, but now expecting them to have a different outcome. This is not a scientifically based approach and the risk of failure is unreasonably high. We want to create a socially supportive environment

for the investigation officers where they will feel strongly supported to say exactly what they see, instead of asking them to be superheroes and break all social behaviour science laws that we're seeing with these videos. Instead of social atmosphere that says: "I'm alone against all the rest" we can create for them an atmosphere that says "Everyone knows about this and all the colleagues are working on the same subject, so I'm free to say exactly what I think as I don't need to conform with the rest to keep my social status and risk my job".

As it is with the police authorities in this respect, so is it with the level of prosecution and on the government level as well. All of these groups need to feel that the majority of the people from their professional area know about this subject and also that there are quite a large number of people who demand a clear answer on this matter and have stepped forward and this information is spreading extremely fast. **It's not that people are necessarily corrupt and dishonest** if they reject something **that looks so simple and obvious** for somebody else. Once again, **the incredible social behaviour impact** of the group action will give us the answers in these videos.

### Conformity experiment – are people sheep?

In this video an unaware woman of the experiment joins a group of actors who stand up every time there's a beep in the room. What's more shocking though is that not only she goes on doing this while left alone in the room, but she manages to teach all the newcomers to do the same without anybody ever trying to find the meaning of it. The conclusion is that people are ready to do unreasonable things when confronted with the possibility of being left out of the group, because people are social beings.

**YouTube: Social Experiment – most people are sheep**, <https://youtu.be/MEhSk71gUCQ>

**The ASCH experiment of conformity.** During the 1950s Solomon Asch conducted and published a series of experiments that demonstrated the degree to which an individual's own opinions are influenced by those of a majority group. Demonstrating how a "normal" human being can be pressured into unusual behaviour by people they deem as authority figures, or by the consensus of opinion around them. In the video a subject is placed in a group of actors who were instructed to give the wrong answer to a

very simple visual test. Shockingly the subject conforms to the group's false answer and starts giving the same false answer simply to remain in the majority of the group. **YouTube: The Asch Experiment**, <https://youtu.be/qA-gbpt7Ts8>

Now that you watched the videos, try to think about how they apply to a situation where a police officer or a prosecutor is given this documentation while being in a country with around 70-80% of the population has been vaccinated and most probably they themselves also have gone through this procedure. That will be, once again, nothing else but literally repeating the exact same experiments in this new environment and expecting a different outcome. This wouldn't be an intelligent approach where one could expect a positive outcome.

Based on these scientific social behaviour observations I would very highly recommend for the pioneers of these financial claims to organise themselves in groups and place their claims simultaneously at all police stations in their city and if possible the county and even the country. The rest won't need this extra effort.

- **SHARE THE INFORMATION AND GO ON A BIG SCALE**

In the context of the above mentioned I've prepared a [A Letter To Any Organisation Informing Them Of The Presense Of Illegal Bluetooth Network Inside Their Premises](#) . It can be given by hand or sent through e-mail to any owner/head/general manager of any public space building to inform them of the crime committed inside their premises without their knowledge and to give them immediate opportunity for financial compensation for all their employees and clients/visitors/passengers/guests as well as providing a social and individual healing from the damage caused.

- **WATCH THE VIDEOS DEDICATED TO THIS THEME**

I highly recommend for you to watch the videos dedicated to this theme on my Bitchute channels <https://www.bitchute.com/channel/theukoflove/> or Rumble: <https://rumble.com/user/TheUKofLove>

Among those you can see a live demo how I place a complaint in the Bulgarian police by doing a live demonstration and handing the documentation. It took the investigation officer just 3 working days to send the documentation to the prosecution with which the Bulgarian police became the first institution in the world to practically admit that the information from this documentation is true and there's a crime.

Bitchute: [Bulgarian Police: Yes, there are Bluetooth chips in the vaccinated](#)

- **LAWYER'S SUPPORT**

I'm not a lawyer and have never dealt with the law or any cases, except for the case I filed with the police on the video above and I did it without any consultation with anyone. The fact that it went through so quickly means that it is very efficient. Yet, the documentation I've prepared is the basis on which a lawyer needs to apply the specifics in this field. This is the reason why I shared the documents in PDF, Word and on-line Word format on the [Bluetooth Freedom Project's](#) page. If you yourself are not proficient in this field, then you'll need a lawyer.

- **TAKING THE EVIDENCE AND STARTING THE HEALING**

If your body emits a Bluetooth signal it serves as evidence for your claim. Yet, the investigation and court procedure might take some time while you want to start with your detoxification and healing process. In this case it would be best to engage witnesses, perhaps lawyers would be the best choice, in front of whom you can conduct the tests and take the necessary videos and sign the necessary observation protocols/documents from the test, so that you can go ahead straight away with your healing. Glutathione seems to be the most recommended means for speedy detoxification from the graphene oxide, which is the carrier of the Bluetooth telecommunication operational system installed in the bodies of the vaccinated through the Covid vaccine. You can see the recommended healing solutions at the end of [the Bluetooth Freedom Project book](#) or on internet.

- **SHARE YOUR EXPERIENCE**

Please, share your experience in the [Bluetooth Freedom Project Forum](#) or in the Telegram group of the project <https://t.me/VaxChipFinder> .

- **SUPPORT THIS PROJECT**

If you consider that this information and documentation has been of a substantial value for you, please consider sharing a [donation](#). This project is entirely volunteer based and has no other income channels for the time being.

Thank you.

## IN GRATITUDE TO THE UNKNOWN SAVIOUR OF MY LIFE

While I was 17 I tried to end my life by drinking some sleeping pills as I thought that life didn't have any more meaning for me. I haven't done drugs, nor did I have any problems with my family or a relationship. It's just that I didn't believe in spirituality, didn't have spiritual experiences and simply couldn't find any further meaning to live. It's many years later that I had out-of-body experiences and felt how all I wanted to do is come back and have my body again. Also, from all spiritual masters I've met I understood that suicide really isn't a good thing for the soul to

experience as it becomes worse afterwards. I'm deeply devoted to the teachings of my spiritual guides. They have names and some of them are in a body. They helped me appreciate life on a much deeper level and not just find a meaning to live, but to be deeply inspired and to be alive. They came to me in different ways and in different methods, languages and interpretations with a common ground between them all. Yet, before all of them, I hold in my mind the memory of this one, **THE UNKNOWN**. The one who never had a written or spoken word and teaching or organisation, who never expected from me to follow a teaching that he has given, who didn't even leave a trace for me to follow and say to him **THANK YOU!** He didn't care that I did everything wrong according to the spiritual understanding that I have today. Somewhere in between life and death, somehow, something or someone has reached his hand out and simply has put me back inside my body and returned me to life without asking for anything.

To this one: **THANK YOU!**

I myself have not taken the vaccine, but when I look back to this episode of my life I did something much worse than this – I consciously tried to take away my own life. I'm doing this work in gratitude to this one, **THE UNKNOWN**, who helped me **IN SPITE** of my ignorance and gave me all the freedom of choice of what to do afterwards. If you feel you can try and help somebody else in a similar way, then here's one more way of doing this by sharing the information from this project and giving people the chance to have their bodies, their minds, emotions and consciousness back again. It is a beautiful thing and it's worth it.
